

Glovers is able to provide its full range of construction support services as part of a larger team and has worked with legal teams and other expert teams on numerous large value matters.

Glovers has a number of practising expert witnesses all of whom maintain 'hands-on' experience of live jobs so their opinions are both practical and up-to-date.

Litigation Support Team

arbitration and litigation support

Glovers understands that more complex disputes often require a more detailed solution which may require expertise to be obtained from a variety of sources.

Glovers is able to provide all of its services as part of a larger arbitration or litigation team and has performed this role on several large value matters including international arbitrations and TCC actions.

All Glovers' litigation support team have qualifications in both construction and law which means they are well versed in the procedure and standards required in proceedings.

Glovers can remeasure and value accounts, evaluate variations and assess extension of time and loss & expense entitlement for either claimant or defendant.

We have provided our expertise to legal teams on a wide variety of construction projects including:

- Commercial
- Industrial
- Housing
- Power plants and utilities
- Retail
- Petrochemical and process plants

Project Experience

- Document review, drafting and quantification of claims, assistance with pleadings and witness statements for two £multimillion international panel arbitrations
- Re-measurement and valuation of works at Teesside Coal Fire Power Station in relation to a High Court dispute
- Re-measurement and valuation of civil and mechanical engineering works at Connah's Quay Combined Cycle Power Station
- Re-measurement and valuation of civils infrastructure works for a dispute concerning a large diameter drainage and sewerage scheme
- Measurement of mechanical and electrical installations and preparation of a disruption claim for a dispute on a topside skidded module
- Preparation of claims in connection with communication and control systems on a large tram link project
- Preparation of claims for an M&E contractor on a pharmaceutical plant for subsequent referral to Expert Determination
- Preparation of interim applications for extensions of time and subsequent final extension of time and loss & expense claim on behalf of main contractor on a new build residential development
- Preparation of claim and representing party in dispute in connection with supply, fabrication and installation of pipe work and equipment to a Flue Gas Desulphurisation Plant at a power station (German Arbitration)

expert witness

Glovers employs practitioners who are able to act as Expert Witness on a wide variety of issues. The strength of our Experts lies in their continued 'hands-on' experience of construction projects. This means they can give practical contemporary opinion which is respected and given weight by judges and arbitrators alike.

Our experts are always mindful of their duty to the court and this had led to a significant number of appointments as Single Joint Expert. Often our Experts' involvement in a case can lead to a negotiated settlement of the dispute.

Expert appointments vary widely from low-value domestic disputes concerning workmanship issues to complex £multimillion and multiparty matters, some of which have involved up to 13 experts.

All our expert appointments are case-managed by our Head of Dispute Resolution to ensure adherence to tribunal timetables and a swift response to any queries or requests for further information.

Recent Appointments

- Quantum Expert in a major dispute (circa £85 million) in connection with a Waste Water treatment plant
- Quantum Expert instructed by the Government of Bermuda, regarding termination of Contract and valuation of works on a new \$80 million secondary school
- Appointment, by recommendation of Counsel, as Expert in a dispute regarding a major PFI project
- Quantum Expert in connection with civil and mechanical engineering disputes on the construction of two cooling towers at a Teesside power station
- Quantum Expert in connection with a dispute regarding funding and financing of a major housing development
- Quantum Expert on a dispute involving the value of construction of a industrial unit
